

STRIP CUTTING TROLLEY

This machine are used to cut strips from a sheet. The machine is easy to use and setup. As multiple torches are used for cutting, it will enhance productivity to a great extent.

Features

- Aluminum die cast body for light weight
- Nozzle Mix type of flame cutting torch
- Wider wheel base makes it more stable
- Stepless variation of speed by electronic control board
- Pipe header is provided so that only two pipes needed to connect
- Individual actuating valves provided so as to make operation simpler
- The distance between the torches can be adjusted with knob and no special tools are required to do the same
- Three cutting at the same time and hence distortion is reduced to a great extent

Basic Outfits

Cutting trolley
1.8 Meters Rail
Circle cutting attachment

Technical Specifications

Machine Model	Cut Easy Strip - 3
Input Supply	230 Volts Single Phase 50 Hz
Cutting Thickness (mm)	6 ~ 10
Trolley Speed (mm)	50 ~ 750
Number of Torches	3
Cutting Width (mm)	70 ~ 1000
Weight (kg)	43
Total Weight (kg)	43
